James Hack (R) tests his A Gas for Tuesday's event. He first competed in the Nats in Glenview IL in 1962, when he was 14 years old. James got married and took roughly a 40-year hiatus from modeling. Returning to the Nats has been on James' bucket list, and this year he checked it off! He brings with him his son, Jim Jr. and grandson, William.

Today's Events:
Free Flight

Tuesday, July 9

Free Flight Day 1 Recap

Day 1 of Free Flight began with mild winds out of the southwest as forecast. The projected wind speed was 5-15 mph and held true for most of the day. Fortunately, the prediction of rain did not come true and the day was very flyable.

The air was tricky at times, however, with drops by fliers that normally run up the maxes.

Ten events were flown across the AMA and NFFS spectrum of glider, rubber power, gas, and electric-powered disciplines.

The excellent volunteers helped pull it all together for CD Joe Mekina at the central scoring area where most events were run. This help included Frannie Masterman, Lisa Pacelli, Paul Crowley, Roy Stewart, Dave Lacey, and Jim Bennett. Also, Aram Scholsberg ran the FIA remote flightline, while Diane Gerspacher ran the Glider Pen for Old-Time Hand-Launched Glider.

My observations were that everyone had fun and that there was flying activity from the initial start time of 8 a.m. right up to when the closing horn sounded at

5 p.m. Plenty of fliers seemed to be busy all day, flying multiple events

Lunch was provided by Mark Carter and his famous hot dogs. It was great to see Carter's Nearly World-Famous Hot Dog's again, which seem to have grown into

everyone's favorite choice for lunch.

No evening flyoffs were needed, and the process of handing out the awards proceeded in record time thanks again to the expert volunteer staff that ran the meet today.

7:45 a.m. at the daily pilots' meeting.

There's no shortage of pilots as they line up to process their airplanes.

Having been away from this sport for many years—last flying at the Nats in the 1990s—I found that a lot has changed. This first day as *NatsNews* reporter I learned a lot—getting acquainted with the various new events that have sprung up over the years, as well as observing how much the performance of the models in the events that have remained constant has improved.

I was also amazed at how the AMA has improved the site here at Muncie, not only in terms of the flying site itself, but also in terms of camping and restroom facilities.

It has been a good Day 1 for nearly everyone and I personally look forward to the remainder of the days of the Free Flight Nats!

reporter/photographer

Cade Fedor, age 10/Junior, is from Grandview TX and flew his F1A today. His first competition was in Seguin TX, where he flew Hand-Launched Glider, and flew in his first Nats when he was eight years old. This week Cade will also fly $\frac{1}{2}$ A, Hand-Launched Glider, Catapult, P30, F1P, F1G, and F1H. He has lots of support from his grandpa, Mike, and his father, Jeff.

Kyle Gerspacher, age 12/Junior, from Clarksville OH, was the winner of the combined age class (JSO) Old-Time Hand-Launched Glider event. Kyle beat all contestants—including his father, David, who placed third. Kyle has been flying since he was five and his first competition was the Nats in 2006. This week he looks forward to flying Old-Time Catapult, Hand-Launched Glider, Catapult Glider, P30, Mulvihill, and Old-Time Cabin. Kyle's favorite event is P30.

Robert Marier, age 17/Senior, flew his Joe Williams Moffett to third place in the combined Junior/Senior Open event, as well as the Best Senior Award. Robert's time was also good enough for a senior national record. Robert has been flying since he was seven. His first competition was at a Thermal Thumbers of Metro Atlanta meet in 2004. Hannah Marier placed first in Junior $\frac{1}{2}$ A gas. She has flying since she was four, when her first model was an AMA Cub. Dad coaches them with building the airplanes and mom supports them with the much-needed food, water, and clothing while flying. Robert and Hannah are from Roswell GA.

Alex Stalick, age 13/Junior, is from Altadena CA and has been flying for one year. His first competition was in Lost Hills CA. He is standing with his father, Ted, and is holding his Astro Star.

Ralph Ray with his Old-Time Hand-Launched Glider. Ralph placed fourth.

Brian Pacelli holds his F1B as he hugs his mom, Lisa. Brian has flown models since he was eight years old and flew in his first FF competition in Rocky Hill CT. He was F1B Junior World Champion in 2011 in Slovenia and Open F1B AMA Nats champion in 2012. Last year, Brian was the winner of the top AMA scholarship and will be a sophomore at Muhlenberg College in Allen Town PA. He will be flying in F1B, F1P, and P30. Brian also volunteered his time to be the F1C/F1Q event director on Tuesday.

Gina Barron, age 10/Junior, is from North Haven CT, and has been flying since she was four years old. She hasn't missed a Nats, except last August when she flew in the Junior World Champs in Slovenia. She beat her dad today in F1A and will be flying F1H tomorrow. Gina says that the best part about flying is winning.

Right: Kenneth Warden, from Indianapolis, with his Free Flight chase and recovery pedal car made out of a couple of mountain bikes. It features rear-view mirrors, 18 speeds, speakers, an airplane holder, a rubber stooge, headlight, taillight, basket, and an air horn. Kenneth loves to build and fly stick-and-tissue models. This is his first Nats.

Dan Berry, from Benton AZ, began flying in the mid-1970s but had been away from the hobby for a number of years. He picked it back up in 1998. Dan placed first in both 1/2A Gas and Payload. Dan is shown here with his Payload model which he calls "Pay Me with Beer." Dan claims the secret to its success is the checkerboard pattern on the wings.

Dave Edmonson poses with his Payload model.

Bernie Boehm helps Bill Schlarb check his timer setting for a flyoff. Bill won the event with a good score of 541 seconds.

Free Flight

Chuck and Linda Powell with their "light 'em up" T-shirts. Frannie Masterman, NFFS treasurer, adds her brilliant smile.

Diane Gerspacher was the event director for Old-Time Hand-Launched Glider. She ran the glider pen and offered candy to the fliers as they turned in scores. Her son Kyle and husband David look on.

Hank Sperzel with his C Nostalgia Gas Ramrod, while his wife mans the starting cart.

Jim O'Reilly was the first to show at the processing table with his Moffett models.

John Lorbiecki, National Free Flight Society (NFFS) president, talks with Dan Berry about his 1/2A Marvel. Dan was the winner of the event.

Free Flight

John and Ryan Seymour of Radner OH.

Joe Mollendorf was testing to get ready for tomorrow's Rise-Off-Water (ROW) event. His model is a Hydro Star built by Vince Vilardo and designed by Sal Taibi in 1960s. The model flew well and is ready to go for tomorrow.

Billy Reuter, of North Olmstead OH, with his smaller .020 AMA Payload model, as well as his larger 1/2A Nostalgia Payload model.

Bob Hanford, from Broken Arrow OK, winds his Small Mulvihill model. Bob flew late in the day and worked his way into a well-fought second-place finish. Bob is normally seen with a gas model in his hands, but took time to fly rubber today.

Joe Mollendorf with his 1/2A model.

The 2013 National Aeromodeling Championships are sponsored by:

Thank you for joining us this year!

Testing his model for the Satellite 226 One Design event on Wednesday was Dean McGinnes, from Dothan AL.
